

# Internet Of Things Virtual Network Computing

Dr. Murad Yaghi Eng. Malek Al-Louzi

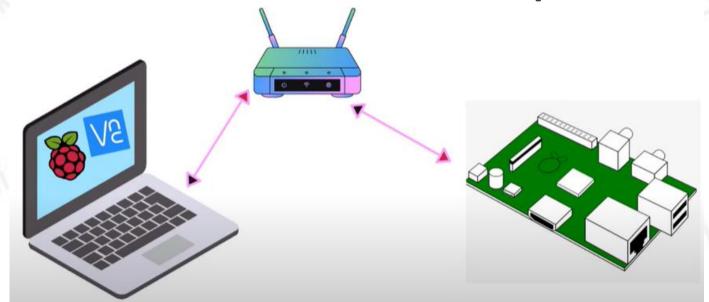

School of Computing and Informatics - Al Hussein Technical University

Fall 2024/2025

#### Introduction

- Sometimes it is not convenient to work directly on Raspberry Pi
- Virtual Network Computing (VNC) facilitates remote desktop sharing
- This is a form of remote access on computer networks

#### What is VNC

- VNC is a graphical desktop sharing system
- It allows you to remotely control the desktop interface of Raspberry Pi from another computer

Visual display of Raspberry Pi

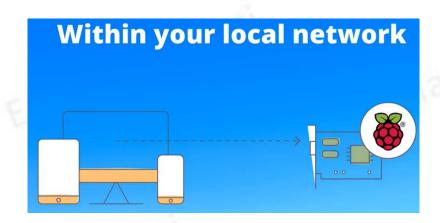

Control Raspberry Pi Remotely

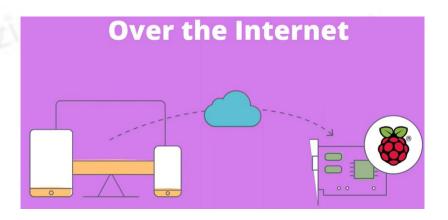

#### What is VNC

- You will see the desktop of Raspberry Pi inside a window in your computer once the VNC is connected
- you can access your Raspberry Pi remotely within your local network or over the internet

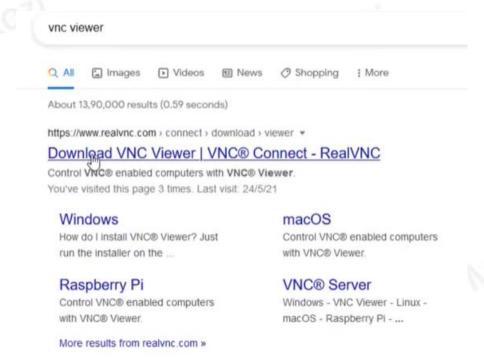

#### **VNC**

- You default, install VNC viewer on your computer default, you have to enable VNC in your Raspberry Pi
- By default, VNC is installed on Raspberry Pi
- We will learn how to install VNC viewer on our computer and enable it in Raspberry Pi

## **Installing VNC viewer**

Search for "VNC viewer" on google

Click on download from realvnc webpage

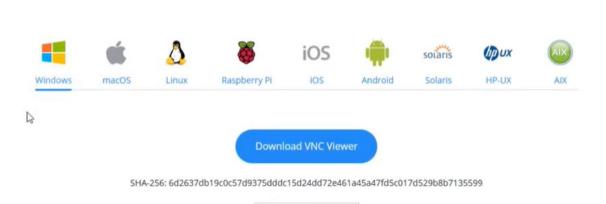

## **Installing VNC viewer**

Select appropriate OS then click download

VNC® Connect consists of VNC® Viewer and VNC® Server

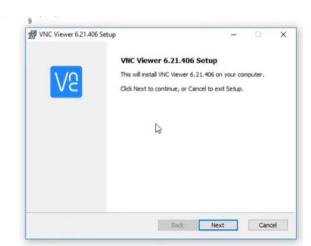

Download VNC® Viewer to the device you want to control from, below. Make sure you've installed VNC® Server on the computer you want to control.

EXE x86/x64

Run the downloaded installation file

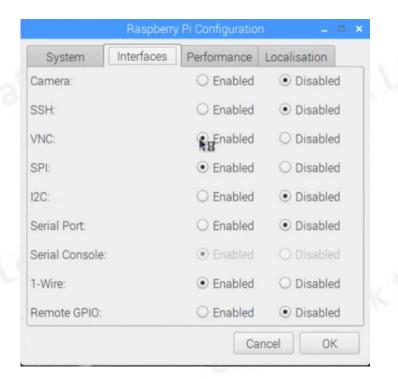

# **Enable VNC on Raspberry Pi**

On your Raspberry Pi, open Raspberry Pi

configuration

Go to interfaces tab and enable VNC

Sign in...

# **Connect to Raspberry Pi remotely**

- Open VNC viewer on your computer
- Enter the Raspberry Pi IP address
- You can check the IP address using "ifconfig" command on terminal

192.168.0.2 192.168.0.3 192.168.0.4 192.168.0.5 192.168.0.6

192.168.0.7 192.168.0.9 192.168.0.10 192.168.0.11 192.168.0.12

192.168.0.13 192.168.0.15 192.168.0.16 192.168.0.17 192.168.0.18

VNC CONNECT Enter a VNC Server address or search

Finally, enter the username and password for your

raspberry Pi

# Raspberry Pi Configuration

- We can access raspi-config tool in two ways Eug. Walek rosi
  - Through terminal
  - Raspberry Pi configuration GUI

#### Remote file transfer

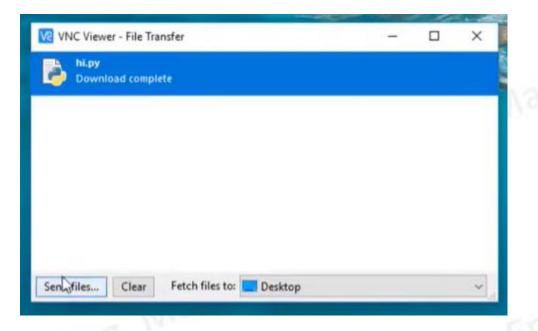

- We can transfer files from Raspberry Pi to your computer or from your computer to Raspberry Pi using VNC
- To transfer file from Raspberry Pi, VNC should be connected
- Right click on VNC icon then select file transfer
- Select the file then press send files

#### Remote file transfer

- Same way, you can send files from your computer
- Click send files in VNC viewer file transfer window
- Select the file and send it
