

NOS Report Guide

Abstract

NOSs are statements that define the **performance standards** individuals must achieve when carrying out workplace functions, along with the necessary underpinning knowledge and understanding.

The apprentice must understand the performance standards and apply the tasks assigned to him in accordance with those standards.

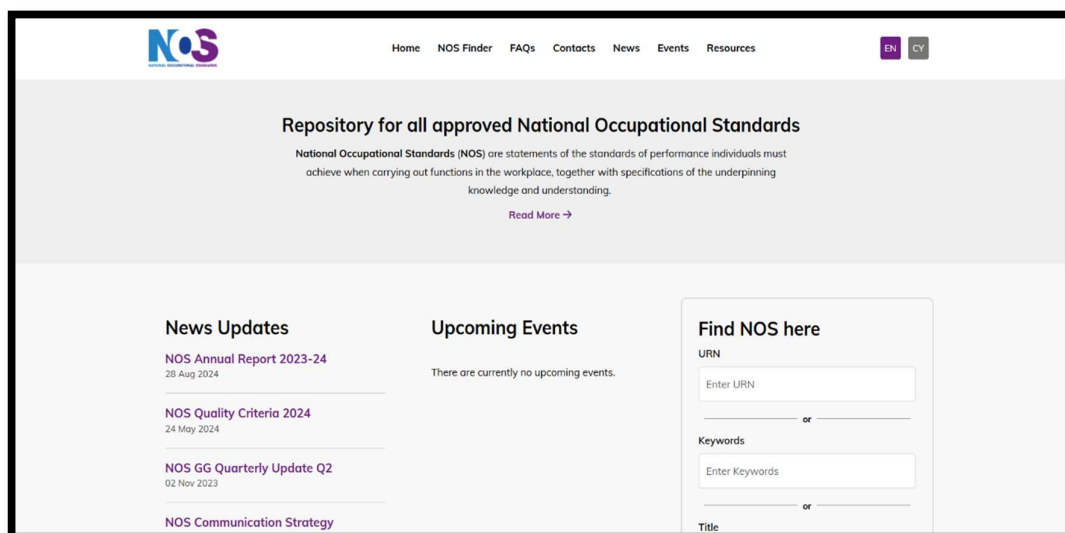

Five NOS reports are required to be submitted, categorized as follows

- **4** Technical NOSs.
- **1** Non-Technical NOS (Soft Skills).

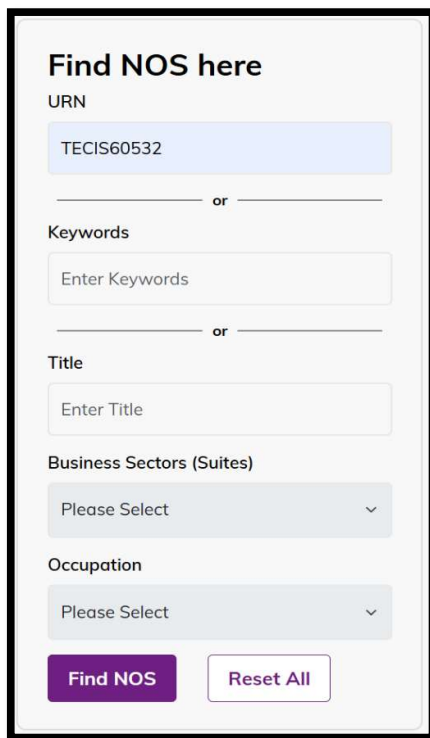

Technical NOSs: These standards focus on industry-specific expertise, such as programming, networking, data analysis, engineering, or system maintenance, ensuring professionals meet occupational requirements and best practices.

Non-technical NOSs: These standards cover communication, teamwork, leadership, problem-solving, adaptability, and time management, ensuring individuals have interpersonal and cognitive skills for effective collaboration.

The NOSs can be found on this site: <https://www.ukstandards.org.uk/en>

How to Find specific NOS

The screenshot shows a search interface titled "Find NOS here". It contains several input fields and buttons. At the top, there is a "URN" field with the value "TECIS60532". Below it is a horizontal line with "or" in the center. Then there is a "Keywords" field with the placeholder text "Enter Keywords". Another horizontal line with "or" follows. Below that is a "Title" field with the placeholder text "Enter Title". Then there is a "Business Sectors (Suites)" dropdown menu with the text "Please Select" and a downward arrow. Below that is an "Occupation" dropdown menu with the text "Please Select" and a downward arrow. At the bottom, there are two buttons: "Find NOS" and "Reset All".

Enter Keywords or URN

National Occupational Standards (NOS) can be identified using a Unique Registration Number (URN) for precise searches. Alternatively, keywords may be used to generate broader search results.

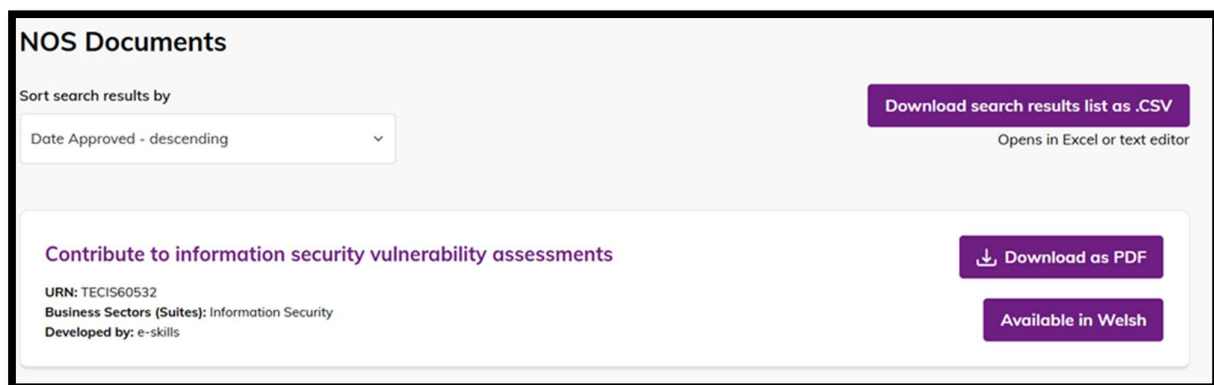

Select a Business Sector (Suite)

NOS are categorized into suites based on the industry sector they apply to. The number of NOS within each suite varies according to sector-specific requirements.

Select an Occupation

NOS are developed in alignment with specific occupations. Searching by occupation provides a wider range of relevant results.

The matching NOSs will be displayed upon completing the search process:

The screenshot shows a results page titled "NOS Documents". At the top left, there is a "Sort search results by" dropdown menu with the text "Date Approved - descending" and a downward arrow. At the top right, there is a purple button labeled "Download search results list as .CSV" with the text "Opens in Excel or text editor" below it. Below the sort menu, there is a large white box containing the text "Contribute to information security vulnerability assessments". Below this text, there is a purple button labeled "Download as PDF" with a downward arrow icon. Below the PDF button, there is a purple button labeled "Available in Welsh". At the bottom left of the white box, there is text: "URN: TECIS60532", "Business Sectors (Suites): Information Security", and "Developed by: e-skills".

Read the performance section points, check how they align with the work tasks, then copy them into the NOS Report template and explain below each one how it was applied, supported by evidence.

Performance criteria

You must be able to:

1. contribute to vulnerability assessments in line with organisational standards
2. collate information on the outputs from vulnerability assessments and identify vulnerabilities in networks and information systems that need investigating
3. communicate the outcomes of vulnerability assessments to relevant stakeholders on newly identified vulnerabilities
4. identify and report any instances of malware identified during vulnerability assessments
5. identify when and how to seek advice and guidance from other individuals during vulnerability assessment activities
6. assist in documenting the outcomes of vulnerability assessments in line with organisational standards

NOS Report

- Student Name:
- ID:
- Company:
- Num of NOS: TECIS60532
- Name of NOS: Contribute to information security vulnerability assessments

****Performance criteria of the NOS and how you applied it in your company ****
(Explain and include evidence from your work)

P1: Contribute to vulnerability assessments in line with organizational standards.

I conducted vulnerability scans on the company's servers and networks using approved tools, ensuring compliance with Orange's security policies. By adhering to standardized protocols, I helped identify potential weaknesses while maintaining the confidentiality and integrity of organizational data. Also only performing VA- scans when assigned to one.
